

NUCLEAR REGULATORY COMMISSION

[NRC-2013-0212]

Interim Staff Guidance on Environmental Issues Associated with New Reactors

AGENCY: Nuclear Regulatory Commission

ACTION: Draft interim staff guidance; request for comment.

SUMMARY: The U.S Nuclear Regulatory Commission (NRC) staff is issuing for use of, and to solicit public comment on, draft Interim Staff Guidance (ISG) ESP/COL-ISG-026, “Interim Staff Guidance on Environmental Issues Associated with New Reactors.” The purpose of this ISG is to clarify the NRC guidance and application of NUREG 1555, “Standard Review Plans for Environmental Reviews for Nuclear Power Plants,” (NRC 2000) regarding the assessment of construction impacts, greenhouse gas and climate change, socioeconomics, environmental justice, need for power, alternatives, cumulative impact, and cultural/historical resources as part of the preparation of Environmental Impact Statements for early site permit (ESP) and combined license (COL) applications.

DATES: Submit comments by [INSERT DATE 30 DAYS FROM DATE OF PUBLICATION].

Comments received after this date will be considered, if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID **NRC-2013-0212**. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3442; e-mail: Carol.Gallagher@nrc.gov. For technical questions, contact the individual(s) listed in the FOR FURTHER INFORMATION CONTACT section of this document.

- **Mail comments to:** Cindy Bladey, Chief, Rules, Announcements, and Directives Branch (RADB), Office of Administration, Mail Stop: 3WFN-06-44M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on accessing information and submitting comments, see “Accessing Information and Submitting Comments” in the SUPPLEMENTARY INFORMATION section of this document.

FOR FURTHER INFORMATION CONTACT: Mr. Jonathan DeGange, Office of New Reactors, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone at 301-415-6992 or e-mail at Jonathan.DeGange@nrc.gov

SUPPLEMENTARY INFORMATION:

I. Accessing Information and Submitting Comments

A. Accessing Information

Please refer to Docket ID **NRC-2013-0212** when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this document by any of the following methods:

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID **NRC-2013-0212**.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may access publicly available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "[ADAMS Public Documents](#)" and then select "[Begin Web-based ADAMS Search](#)." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced. In addition, for the convenience of the reader, the ADAMS accession numbers are provided in a table in the section of this document entitled, Availability of Documents.

- **NRC's PDR:** You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- The agency posts its issued staff guidance in the agency external web page (<http://www.nrc.gov/reading-rm/doc-collections/isg>).

B. Submitting Comments

Please include Docket ID **NRC-2013-0212** in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

Availability of Documents

ADAMS Accession No.	Document Title
ML13045A090	Federal Register Notice: Draft Interim Staff Guidance on Environmental Issues Associated with New Reactors
ML12326A742	Interim Staff Guidance-026, Environmental Issues Associated with New Reactors
ML12326A811	ISG-026, Attachment 1 – Staff Guidance for Greenhouse Gas and Climate Change Impacts
ML12326A895	ISG-026, Attachment 2 – Staff Guidance for Socioeconomics and Environmental Justice
ML12326A960	ISG-026, Attachment 3 – Staff Guidance for Cultural and Historical Resources
ML12328A065	ISG-026, Attachment 4 – Staff Guidance for Cumulative Impacts
ML12328A073	ISG-026, Attachment 5 – Staff Guidance for Need for Power
ML12328A075	ISG-026, Attachment 6 – Staff Guidance for Alternatives

The NRC staff issues ESP/COL-ISGs to facilitate timely implementation of current staff guidance and to facilitate activities associated with review of applications for ESPs, design certifications, and COLs by the Office of New Reactors. The NRC staff intends to incorporate the final approved ESP/COL-ISG-026 into the next revision of the Environmental Standard Review Plan and related guidance documents.

BACKFITTING AND ISSUE FINALITY:

The guidance in draft ISG-026 would clarify how the NRC would apply the guidance in the Environmental Standard Review Plan (ESRP) to environmental reviews for applications for COL and ESP applicants. Issuance of this draft ISG, if finalized, would not constitute backfitting as defined in Title 10 of the *Code of Federal Regulations* (10 CFR) 50.109 (the Backfit Rule), or which should be regarded as backfitting under Commission and Executive Director for Operations guidance, and would not otherwise be inconsistent with the issue finality provisions in 10 CFR part 52. The staff's position is based upon the following considerations.

1. *The draft ISG positions, if finalized, do not constitute backfitting, inasmuch as the ESRP is internal guidance to NRC staff*

The ISG provides interim guidance to the staff on how to review an application for NRC regulatory approval in the form of licensing. Changes in internal staff guidance are not matters for which either nuclear power plant applicants or licensees are protected under either the Backfit Rule or the issue finality provisions of 10 CFR part 52.

2. *Backfitting and issue finality do not – with limited exceptions not applicable here –protect current or future applicants*

Applicants are not, with certain exceptions, protected by either the Backfit Rule or any issue finality provisions under 10 CFR part 52. This is because neither the Backfit Rule nor the issue finality provisions under 10 CFR part 52 – with certain exclusions discussed below – were intended to apply every NRC action which substantially changes the expectations of current and future applicants.

The exceptions to the general principle are applicable whenever an applicant references a 10 CFR part 52 license (e.g., an early site permit) and/or NRC regulatory approval (e.g., a design certification rule) with specified issue finality provisions. The staff does not, at this time, intend to impose the positions represented in the draft ISG section (if finalized) in a manner that is inconsistent with any issue finality provisions. If, in the future, the staff seeks to impose a position in the draft ISG section (if finalized) in a manner which does not provide issue finality as described in the applicable issue finality provision, then the staff must address the criteria for avoiding issue finality as described applicable issue finality provision.

CONGRESSIONAL REVIEW ACT:

This ISG is a rule as defined in the Congressional Review Act (5 U.S.C 801-808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

Dated at Rockville, Maryland, this 5th day of September 2013.

For the Nuclear Regulatory Commission.

Joseph Colaccino, Chief,
Policy Branch,
Division of Advanced Reactor and Rulemaking,
Office of New Reactors
